## 3D Tender - Ultimate 340 Hypalon

£ 3,495

### Description

2023 3D Tender 340 Ultimate with Hypalon tubes, complete with a Honda BF6hp 4-stroke outboard engine. Our client purchased this RIB as a tender for their yacht, but unfortunately the boat was not long enough to accommodate the yacht's davits, so it's now being offered for sale in near new condition. This particular example has the upgraded Hypalon tubes, over the standard PVC tubes, providing much more longevity and protection from UV. Trolley not included. Manufacturer Description The 340 model is equipped with an aluminum double floor, a double storage locker at the front and a 21-liter fuel tank. The double floor of the dinghy allows water to drain from the bottom of the hull. Its flat deck is covered with a non-slip EVA foam. The Ultimate is built with an aluminum hull, guaranteeing the longevity of your boat. The high strength marine grade aluminum is powder coated and heated to a high temperature to ensure a smooth, durable and environmentally friendly finish. Its bow protection and ultra-wide chafe strip give you peace of mind when docking. The pronounced V-shape of its hull provides exceptional stability and passage through the waves. The Ultimate is equipped with 4 lifting rings for use on davits and a towing ring integrated into the hull. This semi-rigid aluminum dinghy is available in heat-welded Valmex® PVC from the German company Melher or in hypalon. For added durability, you can order your Ultimate with the optional Sunbrella protective cover over your boards. This custom cover is made directly with your dinghy in our production facility.

**Sales status:** available

**Manufacturer:** 3D Tender

**Model:** Ultimate 340 Hypalon

**Year built:** 2023

**Length (m):** 3.4

**First launch:** 2023
